

Pet Policy

January 1, 2026

Pets

Students and instructors are not permitted to bring pets to campus, including emotional support animals. Service animals, as defined by applicable law, are exempt from this policy. Pets may be permitted in the Folk School campground with prior approval. Please review the Folk School Campground Pet Policy below for additional information.

Folk School Campground Pet Policy

Students and instructors staying exclusively in the campground may be permitted to bring a well-behaved pet with advance approval from the Folk School.

To ensure a safe and enjoyable experience for all guests, the following requirements apply:

- Pets must remain within the campground area and are not permitted elsewhere on campus.
- Pets must be leashed and under their owner's control at all times when outside an RV.
- Pets may not be left unattended in the campground. The only exception is when the pet is secured inside an air-conditioned RV while the owner is attending class or participating in another on-campus activity.
- Owners are responsible for immediately cleaning up and properly disposing of all pet waste.
- Pets must not create disturbances or nuisance behavior that affects other guests.
- Documentation of a current rabies vaccination is required for all pets.

The Folk School reserves the right, at its sole discretion, to require the removal of any pet that displays aggressive behavior or if the Campground Pet Policy is violated. In such cases, the pet owner may be required to leave the campground, and no refund will be issued.
